

WM^{LTD} NEWSLETTER

Western Manufacturing Ltd. Monthly Newsletter: June - In Our Community: MentorNation

At Western we value community and are committed to taking an active role in helping to build strong, healthy communities in the areas that we live and work through volunteerism and corporate participation. This includes the First Nation communities throughout Western Canada.

MentorNation is a pilot project formed in partnership with the Change it Up! Entrepreneur program of Samson Cree Nation (Treaty 6 Region) and the Canadian Youth Business Foundation (CYBF). This program supports First Nations entrepreneurs by providing the expertise and mentorship of successful business leaders to individually partnered entrepreneurs. The goal of the program is to assist these young entrepreneurs in building capacity, infrastructure, and thriving communities around the country.

Western is happy to be part of MentorNation's pilot program this

spring and we'll be working one on one with young First Nations entrepreneurs to help inspire the passion and drive that is embodied within this initiative.

If you are interested in getting involved, please visit the link below.

We hope you have a wonderful June!
Sincerely,

-The Western Team
